Moved by Co. Gueho, seconded by Co. Filiatrault,
That WHEREAS the cost of education is mounting year by year and becoming intolerable to the land owners;
AND WHEREAS a great influx of large families from the Prairie Provinces has taken place during the past few years;
AND WHEREAS most of these families are settling on small plots of 33' to 66 feet and so on, and therefore, only contribute a very small amount towards school taxes, thereby, increasing the school tax on farm lands;
AND WHEREAS a farmer is taxed for every foot of land whether it is producible or not, also on all improvements even to a small hog pen, thereby, forcing him to subdivide his land into small acreage owing to the high cost of education, hospitalization, social services, dyking tax and principal on same etc.

Resolution.

AND WHEREAS Municipalities have no power of taxation outside of the land tax when they have no large industries.
AND WHEREAS the Province of British Columbia has full and complete access to all avenues of taxation for this or any other services;
AND WHEREAS the Governments are considering placing returned soldiers on the land and loaning them money to start. How can they expect them to pay the loans back under this heavy taxation and compete with large established farms with all kinds of modern equipment and also control of the market; keep a wife and raise a family. After the last Soldiers' Settlement Board we are afraid that this means chaos for Municipalities.

If the Government sees fit to take the authority to control the curriculum of education and set the age to which we must educate the children, therefore, be it resolved that the Government take over the entire cost of education.

Carried.

Moved by Co. Smith, seconded by Co. Gueho,
