## JOHN McLACHLAN

John McLachlan, playing six and twelve string guitar and harmonica, will be performing today with his bassist Rob Mar. Together, they will provide wholesome, earthy music that will touch the old and young alike.

Their repertoire consists of contemporary and historical melodies, love songs, and ballads - mostly McLachlan originals. Through his music John links British Columbians with our unique and colourful past. His careful adherence to actual historical facts gives us a real sense of this history.

The Imagination Market is a non-profit arts and recycling organization, which collects an astounding variety of safe, industrial off-casts and makes them available for creative re-use through workshops, retail sales and mail order. Its goals are to increase both creativity and environmental awareness through the use of these materials.

"Manufacturers' fascinating offcasts become unique creative play materials at the Imagination Market Workshop where imaginations ignite and the child in everyone finds expression."

### PETRONELLA

Summer magic will be enchanting young audiences throughout the Lower Mainland as Burnaby Summer Theatre presents their interpretation of the delightful children's fairy tale, "Petronella".

The story centers around a young princess, Petronella, who determined not to be outdone by her brothers in seeking fortune in the world, sets out to rescue an enchanted prince. In fulfilling her quest, Petronella must overcome her obstacles through kindness, courage and imagination. "Petronella" is an exciting, action packed production that combines audience participation with comedy, music and live magic. The energetic and highly enthusiastic company ensures a fun filled and memorable half hour for all.

&  
DOWER COTTAGE.

## COLIN SHARP

Colin Sharp, originally from England, is a young singer/ guitarist/ songwriter. Today he will provide us with a variety of songs, including many of his own original works, Motown, the Beatles, Elvis Costello, and other pop music.

He has performed in London, England; Toronto; and Vancouver, in the past, and is currently rehearsing a new band to play soon again in Vancouver. A number of his songs have been published and have appeared on record albums. Even though he has often performed as a group and as a duo, he will appear today as a solo artist.

## LEONARD ARULIAH

420-0469

Leonard Aruliah, a talented saxophone player, has performed for us in the past. Accompanying him today is Mike Mascioli (drums), Eric Wing (bass) and Jed Nickel (lead guitar). Even though Leonard plays a wide variety of music he has a great love for jazz.

Leonard has played piano for over ten years and the saxophone for around five. He has played with various groups including the Centennial High School Band. He has performed locally at many functions including school festivals and provincial honours events. He won the C.A.F.A.C. Talent Search, 88 contest in March of this year and has recently received a jazz scholarship to the Berklee College of Music in Boston.
